

Hadih!

Here is your weekly update from Curriculum & Innovation!

Do not hesitate to reach out to our C&I Team for collaboration / support, etc.

Mussih Cho 😊

**This is our last Wednesday Flash of the year... Oh, the places we went!!
Wishing you a restful holiday season and looking forward to a great year of learning, exciting discoveries and collaboration.**

LATEST UPDATES

Take Action for Reconciliation: January 20th Learning Opportunity for Teachers

January 20th: 3:00pm-4:00pm - Please register on PD Reg ; Teams Meeting Link

Take Action for Reconciliation is a brand new E-Resource for elementary students available in English and in French. Explore how students can be a part of reconciliation with concrete action through inquiry. This resource includes a complete teachers guide to help you plan and use this, plus physical versions of these kits are also available.

Weekly Cyber Bulletins for all SD57 employees – Check out the following resources

<p>January 3-7</p>	<p>Protect your identity. When unexpected messages pop up, you can't always be sure who you're talking to. Know the signs of phishing so you can spot a scammer.</p> <p>https://www.getcybersafe.gc.ca/en/resources/video-phishing-dont-take-bait</p>
<p>January 10-14</p>	<p>Protect your identity. When posting on social media, leave out personal details like full names, addresses or other private info.</p> <p>https://www.getcybersafe.gc.ca/en/resources/identity-theft-no-joke</p>

January 17-21	<p>Stay safe! Your accounts hold so much info about you and your students. Keep details to yourself by using strong and unique passphrases for every account.</p> <p>https://www.getcybersafe.gc.ca/en/resources/video-creating-strong-password</p>
January 24-28	<p>Stay safe! Links aren't always what they seem to be. If you receive an unexpected link, make sure it's legit. ImportantMemo.zip might look harmless, but it could be a scam to get you to download malware (viruses).</p> <p>https://www.getcybersafe.gc.ca/en/blogs/sharing-special-moments-while-being-cyber-secure</p>
January 31-February 4	<p>Stay safe! Just got a new device? Before downloading that cute video your friend just sent, make sure you download an anti-virus software. Here's how to choose one that's right for you.</p> <p>https://www.getcybersafe.gc.ca/en/blogs/how-evaluate-anti-virus-software-and-choose-right-one-you</p>
February 7-11	<p>Stay safe! Make sure your Office 365 account is secure. Turn on multi-factor authentication to add an extra layer of security and keep your account safe.</p> <p>https://www.getcybersafe.gc.ca/en/secure-your-accounts/multi-factor-authentication</p>
February 14-18	<p>Be secure! We often bring our work home, but if we don't have a secure router, we could be exposing private student information over Wi-Fi. Make sure your home network is keeping your work secure with these steps.</p> <p>https://www.getcybersafe.gc.ca/en/resources/your-network-ready-anything</p>
February 21-25	<p>Be secure! Sometimes scammers pretend to be your co-workers, and even your principal. Make sure you know how to spot the signs of spear-phishing emails.</p> <p>https://www.getcybersafe.gc.ca/en/blogs/spear-phishing-what-it-and-how-you-can-protect-yourself</p>
February 28-March 4	<p>Be secure! Out and about our devices often connect to public networks. Make sure you use a VPN to protect your devices from unsecure public Wi-Fi.</p> <p>https://www.getcybersafe.gc.ca/en/secure-your-connections/public-wi-fi</p>

March 7-11	<p>Help our students be secure! If we've learned one thing recently, it's that online learning isn't easy. As more students get school email addresses, it is important that they know how to stay safe online. Help your students stay cyber-safe in all their online activities, from gaming to getting that school project done.</p> <p>https://www.getcybersafe.gc.ca/en/blogs/cyber-security-kids-introduction</p>
March 11	<p>Protect yourself! For our last cyber-security message, we wanted to make sure that your "me time" doesn't get interrupted with dealing with cyber-security threats. Be prepared with making sure your Wi-Fi network is secure so you can watch your favourite show in peace.</p> <p>https://www.getcybersafe.gc.ca/en/secure-your-connections/private-networks</p>

Guide Children to Mental Health with Wild Craft Play

This Saturday, December 11th and January 8th, Jamie Black, founder of Wild Craft Play's Cool, is offering training for 10 teachers of grades 3 to 7. She has been teaching teachers and program leaders the art of engagement and boosting personal resilience through outdoor play since 2002, and is able to help. This training is meant to leave teachers feeling resourced and supported.

Founding Members Training Experience:

- A 6 hour day of instruction:
 - 2 hours of videos and resources
 - 2 hours in the field
 - 2 hours of Q&A with Jamie Black, founder of Wild Craft Play
- Spend a few weeks at your own pace preparing
- Begin your guided 6-week practice with your learners in late January or early February

For more information, go to their website: <https://wildcraftplay.com/> or email jamie@wildcraftplay.com
