Session description from Jo Chrona: As we respond to the Declarations on the Rights of Indigenous Peoples, the TRC Calls to Action, and the newest (9th) Professional Standard for BC Teaching Certificate Holders, we continue to lean into in challenging conversations about systemic racism and inequity in our education systems. In this session I invite folks to explore:

- what it can mean to move from fear to learning to growth in anti-racism in Canada, and BC specifically
- how we can understand the roles of bias and privilege in our work, and in whose voices we respond to
- how we can use our spheres of influence to create change.

- February 22nd, 2:30pm to 4:00pm: **Future Ready School Library Learning Commons: E-Resources for the Future** (In-Person at District Learning Commons)
Presented by Joseph Jeffery

As part of our work as library learning commons towards making our LLCs future ready we have to engage in conversations around what is working, what is not and how we get to where we want to go.

These sessions follow one or more of the future ready library framework, a robust set of growth areas aligned with the BC and Canadian Standards for Library Learning Commons.

We will be discussing possible expansions and changes to the district level e-resources available for high schools. How we want to build out our capacity in areas that are lacking.

Part 1

- What is currently being well utilized?
- What do you advertise? With Teachers? With Students? How?
- What areas are missing?
- How do we engage teens beyond the physical space?

Part 2

- Which resources fit with our needs?
- Pro-D/Rollout plan for getting teachers on board at your school
- Costs and cost sharing
